

Question 1:

List the city, state, and zip codes in the customer table. Your result should not have duplicates.
(Hint: The DISTINCT keyword eliminates duplicates.)

Answer:

SQL> Select DISTINCT City, State, Zip from Customer;

Screenshot:

```
SQL> Select DISTINCT City, State, Zip from Customer;
CITY                               ST ZIP
-----
Louisville                        CO 80027
Boulder                           CO 80309
SQL>
```
