

Q4: Change the location name of “Door” to “Gate” for the row inserted in modification problem 2.

Ans:

```
SQL> UPDATE Location SET LocName='Gate' WHERE LocName='Door';  
1 row updated.
```

Screenshot:

```
SQL> UPDATE Location SET LocName='Gate' WHERE LocName='Door';  
1 row updated.  
SQL> Select* from Location;  
LOCNO      FACNO      LOCNAME  
-----  
L100       F100       Locker room  
L101       F100       Plaza  
L102       F100       Vehicle gate  
L103       F101       Locker room  
L104       F100       Ticket Booth  
L105       F101       Gate  
L106       F100       Pedestrian gate  
L107       F104       Gate  
L108       F104       Locker Room  
9 rows selected.
