

Ans 4:

Application of Identifying rule:

1. Adding *LoanNo* as part of the Primary Key of Table DisburseLine.
2. The Primary Key of Table DisburseLine must be a combination of *LoanNo* and *DateSent*.
3. LoanNo is part of the primary key so NOT NULL constraint for LoanNo is redundant.

DisburseLine(LoanNo, DateSent, OrigFee, GuarFee)

Constraint: FOREIGN KEY (LoanNo) REFERENCES Loan
