**Question 3:**

List all columns of the resource table with a rate between $10 and $20. Sort the result by rate.

Answer:

SQL> SELECT * FROM ResourceTbl
  2 WHERE Rate BETWEEN 10 AND 20
  3 ORDER BY Rate;

Screenshot:

```
SQL> SELECT * FROM ResourceTbl
  2  WHERE Rate BETWEEN 10 AND 20
  3  ORDER BY Rate;

RESNO    RESNAME               RAT
-------- --------------------- ---
R100     attendant             10
R102     usher                 10
R105     food service          10
R104     janitor               15
R101     police                15
R103     nurse                 20

6 rows selected.
